Australia's Trusted Christian Coaching Catalyst

Issue No 3 - Winter 2009

Core Coaching Course

Our first Australian 5-day Core Coaching Course, is just around the corner. It's not too late to sign up and join in some of the following highlights:

Core Coaching Tools. At the heart of this course is a solid grounding in the core coaching skills required for effective coaching. Participants will be helped to develop their natural coaching styles as well as learn new skills to strengthen their coaching.

Key Skills Practice. A large portion of the course will be devoted to practicing coaching skills with one another. This deepens the learning as participants integrate cognitive material with real-life coaching practice.

Extended Learning and Support. Participants will continue their learning by engaging in 12 hours of additional learning over the following several weeks. This enables participants to integrate their coaching development into the rest of their lives with the encouragement and support of Novo leaders and other participants. Practice over time is the key to transformative growth.
